OPTION B: EVENING PARENTS' SESSION FOLLOWED BY WORKSHOPS FOR STUDENTS DURING ONE SCHOOL DAY

PART I: PARENTS' SESSION (90 minutes, 6:30pm-8:00pm)

- ☑ Reasons why we need to talk to children about sexual health at a young age
- ☑ 5 stages of sexual development children progress through on their way to becoming sexually mature adults
- ☑ What children should know at each stage, with specific examples of ways to explain body parts and processes
- ☑ How to provide information to children in a way they will understand and remember (and minimize embarrassment for the parent!)
- ☑ How to effectively answer the questions children ask
- ☑ How to reduce risk of child sexual abuse
- ☑ What will be covered in Body Science sessions for students

Time for open discussion and questions will be included, and we will bring a display of books and other resources. Parent session can also be held in the morning, just after student drop-off.

PART II: CHILDREN'S SESSIONS DURING SCHOOL DAY

Sessions presented in assembly format, two grades at a time.

Kindergarten and Grade 1 sessions (30 minutes)

- ☑ Scientific words related to sexual health
- ☑ That reproduction usually happens when a man's sperm joins a woman's ovum by sexual intercourse, but that there are many different ways that families are formed. All families are unique.
- ☑ That they have ownership of their bodies
- ☑ That the baby grows in the uterus (not the stomach)
- ☑ That the baby is usually born through the vagina
- ☑ Not to pick up condoms or needles

Smart decisions start here.
